<https://github.com/Echo-Gambino> 

## Skills

### Languages

Java, Groovy, Python, C# C++, Bash, SQL

### Technologies

Git, Docker, OracleDB, Sybase, MongoDB, NodeJS

### Tools

UNIX, Linux, Windows, VSCode

## Experience

### SaaS DevOps Engineer, Murex

03/2022 - Now

- Implemented SaaS specific features to add value for our new and existing clients.
- Optimized team-wide BAU by enhancing internal automation tools on Murex.
- Exceeded expectations by maintaining low RPO/RTOs in disaster recovery drills.

### Software Developer Intern, University of Alberta

05/2019 - 12/2019

- Slashed the tool's loading time by 60% by lazy loading its libraries.
- Refactored and maintained legacy code to the main product's codebase.
- Implemented and presented key features of our software to potential investors.

### Head Web Developer, FACTSnet

05/2018 - 07/2018

- Developed features onto legacy codebases to meet client specifications.
- Refactored major portions of the codebase while preserving key features.
- Led team members by unblocking others, prioritization, and resolving disputes.

## Education

### University of Alberta

B.Sc Computer Science Honors

2016 - 2020

GPA: 3.7
